## Accelerant SG-R 702

**Chemical Name:** Zinc Diethyldithiocarbamate

**CAS NO.:** 14324-55-1

**Product appearance :** White power

### **Applications:**

It is mainly used as ultra accelerator for natural and synthetic rubber and as general accelerator for latex. It is a good activator for the accelerants of thiazoles and sulphenamides. It has strong water activation on the butyl rubber containing the accelerant M, TMTD or a mixture of the two accelerants. It can be used in the products of EPDM, foamed latex products, impregnated goods, etc. Because it is nontoxic, odorless, non-contaminating, non-discoloring, SG-R 702 can be applied to white or light color goods, transparent goods, medical ware and the goods can be contacted with food. It also can be used in tyre, inner tyre, electric cable, the roofing sheet material, rubber coated fabrics, and self-sulfur goods.

**Packing:** Packed with PE bag or cardboard drum, also can be packed according to customer's requirement.

**Storage:** Seal and store it in a cool, dry and ventilated place, keep moisture-proof and waterproof, far away from kindling material and heat source.
