## Titanate SG-Ti 503

**Chemical Name:** Diisopropoxy-bis ethylacetoacetato titanate

**CAS No.:** 27858-32-8

**Product appearance:** Light reddish clear liquid, will precipitate in the form of crystals partly or in all when stored in low temperature.

**Application:**

SG-Ti 503 is mainly used in printing ink, paint and coating industry. It can improve many performances such as heat resistance, chemical resistance, water resistance, and dry properties. It is also used as catalyst in polyester polymerization and esterification.

**Packing:** Packed with 5L、20L、210L plastic/steel drum or 1000L IBC container, also can be packed according to customer's requirement.

**Storage:** Seal and store it in a cool, dry and ventilated place, keep moisture-proof and waterproof, far away from kindling material and heat source.
